## **Lewis (Mistreated)**

## **Radiohead**

Bummed out again by your only business friend The smell of fear is thicker than you think Don't do it, don't jump

Changed shape to fit, in the end you just feel sick A million love songs under anaesthetic Hey don't do it, don't jump

Lewis, save yourself the pain, you'll never get there Lewis, save yourself the pain, it never really mattered

We never noticed, we never understood He just get crushed to fit, he never even smelt out the best It's the best, it's the best day of your life

Lewis, save yourself the pain, you'll never get there Lewis, save yourself the pain, it never really matters

No, I swear, I swear, I swear Oh, mistreated, a low corporate Mistreated, a low corporate

I don't wanna to talk about it
I don't wanna to talk about it
I don't wanna to talk about Lewis, Lewis, Lewis
I don't wanna to talk about Lewis, Lewis, Lewis
