

Sugar Free

Radish

I want to be sugar free
I want to be sugar free
I want to be sugar free
I want to be sugar free

I want to be sugar free
And I don't care if you despise me
I want to see some energy
That you never ever gave to me

I know what I need
I know what I'm gonna do
I know that I'm gonna need
You very soon

I want to be sugar free
And I don't care if you despise me, no
I want to be swimming in the sea
But you keep on trying to drown me

I know what I need
I know what I'm gonna do
I know that I'm gonna need you very soon
Ever since yesterday I sensed a break away
There is no sense for my stay

And take just one step on Earth
And you'll see all the mirth that has gotten to me
Hey, I pretend to be strong when we don't get along
But why are you my enemy, Enemy?

I want to be sugar free
I want to be sugar free
I want to be sugar free
I want to be sugar free
