

I Won't Lie To You

Radney Foster

I won't lie to you
I can't live without the love you're giving
The only thing I know that's true
Is loving you's how I survive this world we live in

The blue ball keeps spinning
The rich folks, they keep winning
No free lunch, no, the little guy's always gotta pay
The rate race, I try to run it
The only way I overcome it is holding nothing back
Whenever you're holdin' nothing back

I won't lie to you
I would die without the love you're giving
The only thing I know that's true
Is loving you's how I survive this world we live in

I can't make this world into what it's not
Somehow you always know just how to make it stop
I won't lie to you

The only thing I know that's true
Is loving you's how I survive
Yeah, it's how I stay alive
Loving you's how I survive this world we live in
