

# If It Were Me

Radney Foster

Her eyes tell the story  
Too many nights alone  
He always takes for granted  
She's waiting there at home

He treats her like she's nothing  
Man, that guy's a fool  
Can't he see  
He holds a priceless jewel

If it were me  
I'd be thanking my lucky stars  
If it were me  
I'd be holding her in my arms

She'd never ever wonder  
What true love means  
If it were me

I've heard the lies he tells her  
When he stays out 'til dawn  
The stuff he tries to sell her  
Nobody buys for long

She deserves much better  
Than the crumbs he throws her way  
I think it's time somebody  
Set him straight

If it were me  
I'd be thanking my lucky stars  
If it were me  
I'd be holding her in my arms

She'd never ever wonder  
What true love means  
If it were me

Someday she's gonna realize  
She's worth a whole lot more  
I'll be right there  
Waiting at her door

If it were me  
I'd be thanking my lucky stars  
If it were me  
I'd be holding her in my arms

She'd never ever wonder  
What true love means  
If it were me  
If it were me
