

# What Do I Do

Raekwon

Test the waters B, Stop playing man

(What do I do?)

When the cream is pile'n, Crib on the Island, Just be style'n

(What do I do?)

When the feds is on me, Pawn separating, My bitch want me

(What do I do?)

When them niggas is tell'n,

Aint built for jail and they nail'n me

(What do I do?)

I just jet off and sail,

Aint no time to be fail'n

What's up niggas, What's the deal, You know the half yo

Bubble bath, Crude style, Check out my laugh yo

All this money in the back of the tub

I reminisce yo when black was a cub

Mad money, Honeys around, Pop'n onies, All hoodies and hard bottoms

Smoking big reefers, The God got it

Slide to the table, Cable drip, Hang to my navel

The feds in the building for Nagle

Forty-five we skate'n, Debate'n if we hit'n up Nathan's

Catch me with a Spanish —

Average nigga, You crazy

To fuck with my wolves is bullshit, Them little guns is for daises

We got the T.I. joints

You violate the crew the clip gone dump on the stage

And everybody's contagious, And when them shots fly off

It's just a recipe for Chef and his cake mix

Ayo, I tell you I love you

But that's what it means to me

More precious then silver

More precious then diamond rings

I really feel that I, That I, That I could kill you

Ayo, The belt holders, Dutch Masters L blowers

Champion hood, Fly A-R, The stainless gazelle soldiers

Yeah we pumping them boulders, Cop'n them gold Rovers

Every show Chevy with no shoulders

That means doors that fold up, The team gleams

More cobras, Graveyard rings, Just old stuff

And then we told ya, Ayo

You running round cake'n off eating healthy my tholdier

Yeah this is the scroll what, So roll up

And let my party people niggas be grown up, and sho nuff

[Chorus]
