Just like the birds that keep on flying Just like the wind that keeps on blowing I see a wave of oceans rolling on and on Just like the sun, these gifts are here for everyone Just like the trees that keep on giving just like the grass that keeps on growing I hear the sound of children singing on and on just like the sun, these gifts are here for everyone Just as the flowers keep on blooming Just like the leaves that keep on turning I feel the change of seasons flowing on and on Just like the sun, these gifts are here for everyone Just like the moon that keeps on shining Just like the stars that keep on twinkling I know a world of wonders playing on and on Just like the sun, these gifts are here for everyone
