

## Clear the Lane

## Rage Against the Machine

Hey, yo, let me be front  
This is real and not a stunt  
I'm comin' to the forefront  
Shovel for the rapper and clear the lane  
'Cos this jam is like a tomahawk chop

Teach ya, I'll never stop droppin' topics  
Vocal power? Yes, I got it  
On Central but they're tryin' to clamp it down  
Flag was wavin' the wrong way, so I shot it down

Get down and at the same time  
Come up, down, this is a crime that shut us up  
I don't give a fuck  
'Cos the words and the thoughts still hit  
And like I said, it's not a skit

Jump another hit, yeah  
Ya know I don't need a drum kit  
Make 'em say, ?Aww, shit?  
The rebellion is true and legit

Down, get down and clear the lane  
Down, get down and clear the lane  
Down, get down and clear the lane  
Down, get down, yeah

The rebel, you'll never disable  
Defiance with the cards upon the table  
Pulling cards, keep the governments in check  
Yo, I think we need a new deck

Never could trust a Philla busta  
The mic is like a fist and it'll bust ya  
With words cold hittin' with the underground  
And now you're checkin' out the new sound

Live hit, a live pop, live rock  
And ya don't stop  
It goes on and on and on  
Who's a threat? C'mon, the war is on

Down, get down and clear the lane  
Down, get down and clear the lane  
Down, get down and clear the lane  
Down, get down, clear the lane

Face start droppin', our words are never safe  
Fightin' with your ...  
'Til I'm where I gotta be  
I challenge, don't sweat it, now don't you forget it  
Check me? What? Wait, you better slow down

Realize I can't confine my rhyme to a beat  
I need cash so when I'm cool, there's never ever weak  
Places are fluid and diluted and complete  
Check me once, calm down and take a seat

Strip the chains, the freedom's there  
But then it's gone

Clear the lane  
Clear the lane  
Clear the lane  
Clear the lane

Defiance rippin' up the south set  
Every time I'm grippin' the mic, it is a sound threat  
Resist against the suckers that bring the bass in  
Timmy C, bring that bass in

Clear the lane  
Clear the lane  
Clear the lane  
Clear the lane
