

# All This Time

Rage

Now, as I had a look at you  
It took a heartbeat and I knew  
That the candle of my life was burning shorter

You turned me 'round to face myself  
To make me trust in what I am  
Now, after all that I have done  
it makes me wonder I'm around

Now the night has gone, better days to come  
All this time I have been afraid, it is not too late

All this time while we talked my thoughts collided  
All this time I could have seen but I was blind  
All this time  
All this time

I thought I'd never see the day  
That in myself I'd feel this way  
We are the meaning and we know  
Forever different - the same

Now the night has gone, better days to come  
All this time I have strained my mind, waiting for a sign

All this time while we talked my thoughts collided  
All this time I could have seen but I was blind  
All this time

Time is like a river that is running out to sea  
We can't touch the ground, so grab a blade of straw  
If you swim on waves of trust you cannot even drown  
When you hit the shores of love you cannot die

I thought I'd never see the day  
That in myself I'd feel this way  
We are the meaning and we know  
Forever different - the same

Now the night has gone, better days to come  
All this time I have been afraid, it is not too late

All this time while we talked my thoughts collided  
All this time I could have seen but I was blind  
All this time while we talked my thoughts collided  
All this time I could have seen but I was blind  
All this time  
All this time  
All this time
