Rage

There in the subway station, they shot him dead
He had broken secrecy - Omerta
That's what they all will get
They've got a job to do
The business is too important to take a risk and so

Please don't get me wrong, if you ever say a word
You'll have missed my friend, this is what you'll get

Execution guaranteed

We are an old family, controlling the trade
Gun running for the white house
The CIA works hand in hand with us
We must feed the flame
Of hate and war in the third world
Cause if they kill themselves

We deliver all they need for the fall
It's big money
They all order and this is what they get

Execution guaranteed

You - yeah, I've got a mission for you
Look- here, a list of men to execute
Shoot- you must shoot them, noone will find out
Truth- truth is a daughter of time
