

# Light into the Darkness

Rage

Shadows in my mind, it's dead, all I had inside  
Bunched is the old fear, just to let a new one appear  
Just be quiet, my heart, and keep the peace in the dark  
Blossom's better than decay  
There must be more for me, I can't wait

Oh, when will you leave, eternal night  
You lead to the nevermore  
End up this chain existence, now  
The best is yet to come for me  
The best is yet to come for me

There's light into the darkness  
So come and lay down by my side  
There's light into the darkness  
Come on and rest your mind in my arms  
Let me enlight your darkness  
There's nothing better than a friend  
Give light into my darkness

I've heard a distant voice  
It said aloud the word I'm waiting for  
Just keep quiet in peace  
Beware your heart in the dark, the word is here

Can you see the colours in the new born leaves on every tree  
Rescue can be found in each thing, if one just gets into it  
If one just gets into it

There's light into the darkness  
So let me lay down by your side  
There's light into the darkness  
Come, let me rest my mind in your arms  
Won't you enlight your darkness  
There's nothing better than a friend  
I give light into your darkness

Free of pain, free from doubts, free of fear

Can you feel the life in all the new born leaves on every tree  
Rescue can be found in each thing, if one just gets into it  
If one just gets into it

There's light into the darkness  
So come and lay down by my side  
There's light into the darkness  
So let me lay down by your side  
There's light into the darkness  
There's light into the darkness  
There's light into the darkness  
There's light into the darkness

If I just get into it
