

Saviour of the Dead

Rage

Demons gather in my head
Take me away, lead me astray
Make me suffer in my bed
Leave me no choice, infernal voice

Drag me into black
Tell me god is dead

Take me away to the end of my life
Saviour of the dead
Take me away, I am starving for light
Saviour of the dead
Now release me into death
Saviour of the dead

I have always praised my god
Followed the priest, prayed for release
Now they cannot save my soul
I am to blame, eternal shame

I am spitting blood
Lay my curse on god
Wasted 'till I'm mad
Driven into death

Take me away to the end of my life
Saviour of the dead
Take me away, I am starving for light
Saviour of the dead
Now release me into death
Saviour of the dead
