

## Seven Deadly Sins

Rage

They run the endless debate  
Who's right and who is wrong  
In their eyes we've all failed in life

Old men in silk and diamonds  
Decide who's right to kill  
A soldier with god; not so his wife

It's just another way to multiply their power  
They need a reason to survive  
Seven deadly sins  
Just give them fear of hell, obey the ivory tower  
If they all want to stay alive  
Seven deadly sins - seven deadly sins

Who are they to speak justice  
About another man  
They've tortured and killed through history

How can you dogmatise it  
You cannot shape the truth  
There's no way to order belief

It's just another game to multiply their power  
They need a reason to survive  
Seven deadly sins  
If we all fear their hell, obey their ivory tower  
They have a chance to stay alive  
Seven deadly sins - seven deadly sins
