

## Time Waits for Noone

Rage

You don't like what you see  
You don't know what it means and what it's like  
You close your eyes  
You're afraid that all you have learned has changed

Time waits for noone  
You can't fix it if you try  
Time waits for noone

You can join it for a little while

Once put into your brain  
All the things of life got a special frame  
But you forget that this world's got a different face each day

Time waits for noone  
You can't fix it if you try  
Time waits for noone

You can join it for a little while  
You can join it till you die

What's this jungle noise  
Long haired filthy boys  
Sex before marriage  
You don't believe in the pope

Time waits for noone  
Time waits for noone  
Time waits for noone  
Time waits for noone
