All my life it took me years to find my way So hard for me to turn around Ain't no way to dry my tears or ease my pain I feel like I am burning out

It seems so long ago, it seems so long ago Like I have been before You taught me humbleness

You turn my world around Turn it upside 'n' down You turn my world around I cry without a sound

All in vain, no second chance to give it back You shouldn't have to take it all All was stained and then this chain around the neck The picture that had made me fall

It is so hard to say, it is so hard to say
If I can stand this grief
You gave me bitter years

You turn my world around Turn it upside 'n' down You turn my world around I cry without a sound

You came into my life, took away what I've loved the most You dried my heart and you killed my soul

You turn my world around Turn it upside 'n' down You turn my world around I cry without a sound
