

Thumper

Raging Speedhorn

Destruction begins again
Our lives are changed a little more
I'd like to see you but I'd like to pretend
That I loved you it had to end
You destroyed your life a little more
So the pain you just turned to bore
I'm sick of you in me
Get the f**k right out of my life

Don't want you f**king with my head
I'll take you out
Don't want to f**k with my head
I'll take you out
Don't want you f**king with my head
I'll take you out
Don't want you f**king with my head
I'll take you out

So I held my head in shame
Bitter cries defy your game
Don't try to play your f**kin' shit
In time I'll disagree
So I held my head in shame
Bitter cries defy your game
Don't try to play your f**kin' shit
In time I'll disagree

REPEAT CHORUS

You know I'll f**kin' deny

REPEAT CHORUS

Destruction begins again
So I held my head in shame
Our lives are changed a little more
Bitter cries defy your game
I'd like to see you but I hate to pretend
Don't try to play, you f**k shit
That I loved you, it had to end
So I held my head in shame!
