

## Fade Into Obscurity

Ragnarok

Can you hear me I am calling you  
I'll make you my sword of destiny  
Sweat, lust, fear erecting you  
Prove your veins go straight through me

A faithful soldier under my command  
Ask no questions yield no ground  
Your order is to do or die  
It's not an option to fall behind

Out from the black - Possess me!

Fade into obscurity  
Go beyond the black  
Dive into your dark desires

I am the one who has come for you innocence  
I am the one who has come for you mortal soul

Fade into obscurity  
Succumb to my command  
Surrender your will to my beck and call

You are my recruitment tool  
To populate hell with fresh souls  
Your reward's to serve me loyally  
You'll never bow down to poverty
