

## Breathe

Raheem DeVaughn

The ultimate pleasure's giving pleasure  
Yeah, I'm a Taurus...they say that we're patient lovers...Are you a Scorpio, Cancer, Capricorn? On the cusp?

If you should feel thirsty, I'll be sure to bring you water  
Yes, girl I got candles that will slow burn longer  
And I know your favorite love song  
and how you like it on repeat  
Me, I was born a patient lover  
so I'll start with your feet

It would be like  
When hearts beat as one  
It would feel like  
No ordinary kiss  
You and I  
Now close your eyes  
And picture us  
Breathing life

I'll do my best to inspire you  
To dream of us til we meet again  
You may even be encouraged  
To take a walk so we can love again  
The Most High outdid herself when  
She created you  
And girl I am thankful  
For how our love has bloomed
