

# Cadillac

Raheem DeVaughn

Mama, I need a ride, yeah  
Somewhere like that  
Would you mind?  
Would you mind? Sing

I was on I-95 on my way to Mickey D's  
When my back right tire went flat  
That's when this sexy little thing with a pearl tongue ring  
Jumped out of a black Cadillac

Now she had a hourglass figure, no sign of a man  
And all she said when she offered a ride was  
Hey baby listen, you can ride on one condition  
Act right when you get inside

She said if you want to ride in my Cadillac  
You gotta know how to act, when to jump in the back  
You gotta touch me like you wanna be touched  
Like it ain't too much for you

She said if you want to ride in my Cadillac  
You gotta know how to act, when to jump in the back  
You gotta touch me like you wanna be touched  
Like it ain't too much for you, babe

Now when I jumped in that's when she begin  
Rubbin' and a touchin' on me  
Then she stopped the car, told me to drive  
'Cause she had a little trick from me to see

So I followed her directions to turn where she said  
Not worryin' 'bout where we supposed to be  
And as I got closer, all I heard was the words  
And the hands and she said to me, see

She said if you want to ride in my Cadillac  
You gotta know how to act, when to jump in the back  
You gotta touch me like you wanna be touched  
Like it ain't too much for you

She said if you want to ride in my Cadillac  
You gotta know how to act, when to jump in the back  
You gotta touch me like you wanna be touched  
Like it ain't too much for you

She said if you want to ride in my Cadillac  
You gotta know how to act, when to jump in the back  
You gotta touch me like you wanna be touched  
Like it ain't too much for you

She said if you want to ride in my Cadillac  
You gotta know how to act, when to jump in the back  
You gotta touch me like you wanna be touched  
Like it ain't too much for you, baby

I'm from the Webber District  
Have you been there before?

Come on let's go I'll take you  
And leave you sprung for more

She said if you want to ride in my Cadillac  
You gotta know how to act, when to jump in the back  
You gotta touch me like you wanna be touched  
Like it ain't too much for you

She said if you want to ride in my Cadillac  
You gotta know how to act, when to jump in the back  
You gotta touch me like you wanna be touched  
Like it ain't too much for you

She said if you want to ride in my Cadillac  
You gotta know how to act, when to jump in the back  
You gotta touch me like you wanna be touched  
Like it ain't too much for you

She said if you want to ride in my Cadillac  
You gotta know how to act, when to jump in the back  
You gotta touch me like you wanna be touched  
Like it ain't too much for you

She said if you want to ride in my Cadillac  
You gotta know how to act, when to jump in the back  
You gotta touch me like you wanna be touched  
Like it ain't too much for you

She said if you want to ride in my Cadillac  
You gotta know how to act, when to jump in the back  
You gotta touch me like you wanna be touched  
Like it ain't too much for you
