

Pink Crush Velvet

Raheem DeVaughn

Baby, see first of all, wanna be known as freaks
So baby, turn the lights on, no shower peaking
Keep your high heels on and follow me
Cause I don't wanna wait another day
Be ready to scream, you'd better be
Cause girl I just want you to say

Baby you feel like pink crushed velvet
The sweetest I've ever felt before
And I knew soon as I felt it
Baby girl I knew I was gonna
Baby I can't help it
So pull your pink crushed velvet all on me

Now I will lay down, baby this ain't a scene
So why don't, I wanna take 2 rounds
Just come down
You're turning me I wanna come, get on it
Baby let's keep making noise
I'm screaming your name, I'm gone I can't control
Remember when you break me down

Baby you feel like pink crushed velvet
The sweetest I've ever felt before
And I knew soon as I felt it
Baby girl I knew I was gonna
Baby I can't help it
So pull your pink crushed velvet all on me

Right here, yeah
Put it on me
All on me
Let it rain
Now I want your pink anatomy all on me

Baby you feel like pink crushed velvet
The sweetest I've ever felt before
Oh I knew soon as I felt it
Baby girl I knew I was gonna
Baby I can't help it
So pull your pink crushed velvet all on me
