```
She can't live
She can't live
She can't live
She can't live
Without the radio
She can't live
She can't live
She can't live
She can't live
Without the radio
She can't live
She can't live
She can't live
She can't live
Without the radio
She can't live
She can't live
She can't live
She can't live
First I try to climb her
I wanna climb on top
Number one like a bullet
Bang bang bang bang
I'll scratch your itches like a DJ
I grab her ponytail when she throws that back
And pull it
I'll be all charged up like double D battery ...
... make her yell
Make her yell
Make her scream
Saying every time she's undressed
Feel her request when she says
Don't touch them down
Don't touch them down
Don't touch them down
In the morning she'll require storm
R A H double E M
She can't
She can't live without the radio
Oh no no no
R A H double E M
No she can't live without the radio
{\tt R} {\tt A} {\tt H} double {\tt E} {\tt M}
She can't live without the radio
R A H double E M
No she can't live without the radio
My number on my iPhone's her
Request line 2026098668
We call that hip-hop
When I speed it up
In the slow jam
When I slow her down
When it's bedroom time
You know we're right back at it
```

Wake her up in the morning like a morning ... show Wake her up in the morning like an alarm clock on the radio

Wake her up in the morning like she ain't got no place to be

She just wanna lay in bed with me

Get a little more Dundee

And I stretch her body out like ...

She say don't touch them down

Don't touch them down

Don't touch them down

Don't touch them down

We are laying there undressed

And I'm feeling her request

She say don't touch them down

Don't touch them down

Don't touch them down

Don't touch them down

Make sure I do

Wanna make sure

She can't live

She can't live without the radio

The radio

R A H double E M

She can't

No she can't live without the radio

R A H double E M

She can't live without the radio

R A H double E M

No she can't live without the radio

Play like the birds outdoor

I play like Di Angelo

I look around her eyes and ask her

How does it feel?

Baby I'm ...

Such that you're here

She makes me holly

... holy girl

I'm bringing tea to her

Fire on desire

Smoking around the center

What is going on?

Tell me tell me tell me

Your head on my pillow

And she can't ever let me go

Cause she can't live without her radio

R A H double E M

She can't live without the radio

R A H double E M

No she can't live without the radio

R A H double E M

She can't live without the radio

R A H double E M  $\,$ 

No she can't live without the radio

R A H double E M  $\,$
