

Soul Mate

Raheem DeVaughn

It's a beautiful day
Almost as beautiful as you
Today my dreams come true
My soul mate

Never knew a lady like you existed on earth
When we met on my life I fell in love
So I am here with you on this day to say
To form a love
Yes you may have my heart

You're my soul mate
With this ring I pledge to be with you
(2x)

So glad you are my lady my one and only lady
You make me feel that I have the world baby girl
My life without you is unheard
Girl I give you my world
For all the days of our lives
You will be, you will be yeah yeah

You're my soul mate
With this ring I pledge to be with you
(2x)

As I stand here today before you
In the name of love
I vow to respect you, protect you, love, cherish
For all the days of both our lives
And beyond the day
Beyond the day that the sun goes down
