

One More Night

One more night
Yeah sexy

I can't understand why you're leaving me
You're going too early, baby, stay at home
'Cause home is right here with me
Baby, I can make it right, I'm begging you to see

Stay
Please stay
One more night
Stay, one more night

I know I haven't been always been there for you
I want you to understand my feelings they're still true
My love is just as strong as on the day we met
And if you give me another night, I'll prove my love to you

We can do it
Baby, we can do it tonight, yeah
[Incomprehensible], yeah

I'm in no way prepared for you to leave
The thought of you leaving me drives me crazy
I'm down on my knees and here I will stay
All I need is one more night to make you stay
