

# The One For Me

Rahsaan Patterson

In my eyes you're so beautiful  
So magical  
My heart is beating repitiously for you  
I... gotta find that special place that beholds the love  
That settles in your nookie heart of sweetness

I want you to know  
You gotta know  
You're the only one for me  
Your love is all I need

I gotta make it known you lookin' like a queen  
With ebony treat me nice  
In the sparklin' diamond-smile that draws me near  
Can I... slide into your world?  
Where there's paradise  
And taste the rivers that flow like sugar through your nights

Break  
I wanna be your troll  
To your duchess  
I know the leaves are blank and seen  
The grass has weeds

While indelin' your assist  
Has got me high...
