

Right In Tune

Railroad Earth

I've got no worries,
I've got no doubts,
'cause I know, you got it all worked out,
You know your part
I know mine
We're right in tune, me and you
We got a straight line
To eachother's hearts
We took the pieces, and we made a part
We took a song and we made it sing,
And we're right in tune
Yes its true
We're right in tune
Oh yeah
We've been up and down
We've been through it all
Came through the summer to the fall
Came through the winter
Came to spring again
And we're right in tune
Yes it's true
Right in tune
Me and you
