## **Jealous Lover**

## Rainbow

Lost and lonely Clouds hide the sun Out on the highway It's all hit and run

Cold empty nights
Demons in my head
It's something I did
Or baby something you said

And it's hard to discover
That you're just another
Jealous lover
And it's so tough to take
But you're making no mistake
Jealous lover
Oh yeah
Don't want no other

Shades of red Eyes of green Sees black and white And there's no in between

Ask me no questions I'll tell you no lies Still you keep thinking That it's all alibis

And it's hard to discover You're like any other Jealous lover And you're saying I'm a fake Don't you making a mistake Oh, no no

Every day it's the same The faces and the names How long can I go on Playing this game

So I live for the nights Soft candle lights Today they love you Then tomorrow they might

And it's hard to face
Someone else takes your place
Jealous lover
And they're saying that's the brakes
But I got what it takes
Jealous lover, ohh oh
Jealous lover
Jealous lover

Don't need no, no no Don't need no other

Jealous lover, yeah Jealous lover Jealous lover
