The Shed (Subtle) I'm like a freight train Feelin' no pain I never turn back one track Better step aside Like a shotgun I'm really someone You'll feel my heatwave Won't save anyone near to me I'm steel So come and try to bend me if you can, hah I don't feel Before you know it it's over Get out of my way I'm street walking, street walking Night stalking, I'm street walking No reputation You better quick run Cause I got no time I'll climb All over you You need a strong hand To be a mean man You've got to think fast I'll last longer than you could know I'm steel I don't feel Before you know it it's over Out of my way I'm street walking

So won't you come and try to bend me if you can

Hey, I'm a wild cat Don't need to prove that I'm always howlin' prowlin' Stalkin' my prey

It could be your night To feel the dog bite And hear the slashing, crashin' Tearin' inside of you

I'm steel So come and try to break me if you can, no way Like a wheel About to roll you over Get out of my way I'm street walkin', street walkin' No talkin', street walking Night stalking, street walking No talkin', I'm street walkin', yeah Street walkin', street walkin' Night stalking, street walking Tištěno z www.txp.cz
