

## Wolf to the Moon

Rainbow

With a rebel mind and a gypsy heart  
No place could ever be home  
Drawn like a wolf to the moon it calls to my soul  
Ain't got no woman, they just tie me down  
Freedom is my only friend  
I get a feeling destiny lies 'round the bend  
One for the road  
Slave to the highway  
King of the road  
Chasing the sun as it sets in the sky  
Swear that I'll catch it someday  
Lights of the city behind are fadingg away  
Makin' my way through the names on the map  
No point in feeling alone  
As long as I ride the open road I'll always have a home  
One for the road  
Slave to the highway  
King of the road  
My future is calling a cry in the wind  
Leading me out of my past  
Got no destination but know that I'm getting there fast  
Crossed many miles got so many to go  
Each one calling my name  
Won't settle down and you know I'll never be tamed  
One for the road  
Slave to the highway  
King of the road
