

Atropine

Rainer Maria

Have you got any magic tricks
That will work for me?
Have you got any magic tricks
That will work for me?

'Cause my baby is in the ground
And she won't come back now

The lights in the sky
Are practically blue hot white
The light in my eye
Is so sharp it cuts the blue right out

Have you got any magic tricks
That will work for me?
I don't suppose there's anything
At all in that bag of yours for me
'Cause my baby is in the ground
And she's not coming back now
