## **Street Song**

## **Raining Pleasure**

Everyone's laughing together and the day is passing merry Like a party laughing. Sidewalks over flow Over the crowded streets the people Dancing, singing as they go. Dance through the shops on the streets of all the parties Crazy, whirling like a spinning daydream,

Spinning you away. Over the crowded streets, the music's Soaring while the people play. Everyone laughing together as the day is passing merry Like a party laughing Sidewalks overflow Over The crowded streets the people dancing, singing as they Go.
