

Let Me Be (I Do)

Raisa

It's Sunday afternoon the rain for slightly on my window
It was go but when you smile
I feel the one beside of me
Little did I know you're about to take my breathe away
When you take my hand love right into my soul in say

Let me be the one to share your dream
Be the one to fly'in to the star
Share your feels and why your tears to live in truth with you
Let me the one to share your word
Simply be my one and only love
To have and to hold and to cherish for all my live

You don't have to wait baby you
Don't even really have to asked
You've been the bestfriend, you've been greatest inspiration
Little did I know you're about to take my breathe away
When you take my hand love right into my soul in say

(Uuuuuhh... I do) Yes I do
I'm so glad as your mine
I'm baby you're the one for me
Every step of the way, I'll be by your side
Forever I do
