

Flame still burns

Raised Fist

Made their threats ruin your name
thought I was broken but the spirit remains
and this flame will keep on burning strong
and I will continue to sing this song
bad-mouthed behind us, taken their shots
but this tattered body will never be stopped
and this flame will keep on burning strong
and I will continue to sing this song
we've heard it all before
and we're ready for some more
if you think I'm gonna break it's
gonna take more than what you've got
don't count me out cause I've got some more
and I'm back with more strength and vigor than before
and this flame will keep on burning strong
and I will continue to sing this song
my feelings in the music and the words
are written in stone, and I know I'm not singing this song alone
