

Love on One Condition

Bonnie Raitt

I might forgive but I won't forget
Believe me, baby
You swear you changed your ways now
You ain't proved it yet

Well, my friends try and tell me
Say that I must be mad
If I'm gonna take you back
After the pain I've had

Well, I explain my position
That I made my decision
I'll grant you love on one condition
Love on one condition

Do me right, don't do me wrong
Come home every night, baby
No more carryin' on

I explain my position
I'll grant you love on one condition now
Love on one condition

Well, my friends try and tell me
That I must be mad
If I'm gonna take you back
After the pain I've had

Well, I explain my position
That I made my decision
I'll grant you love on one condition now, hey
