

# Runnin' Back to Me

Bonnie Raitt

Walkin' in a nightmare  
I've been burnin' in a cold sweat  
There you stand lookin' for my heart  
But you took it with you when you left  
I don't care to hear  
I don't wanna hear what you say

We had a world and a xxxx  
Yeah you really had a way with words  
You kept me tied to a dream  
And I never got what I deserved  
I don't care to hear  
I don't wanna hear what you say  
Cause I knew you'd come runnin' back to me  
When the nights got long  
You say you missed the way it used to be  
When my love was strong  
I knew you'd come runnin' back to me  
When your luck was down  
I knew you'd come runnin' back and see  
I was the best around

Lookin' out my window  
I remember when you drove away  
I never heard you say goodbye  
I gave up thinkin' you'd be here today  
Well I can't hear, I don't wanna hear what you say  
Cause I knew you'd come runnin' back to me  
When the nights got long  
You say you missed the way it used to be  
When my love was strong  
Knew you'd come back to me  
When your luck was down  
I know you'd come runnin' back and see  
I was the best around

Round and round the tables turned  
It's you who longs to hold me fast  
Last chance was the last chance for you

Runnin' back to me  
Yeah, you come runnin' back to me  
Well I knew you'd come back to me  
When your nights got long  
You said you missed the way it used to be  
When my love was strong  
I knew you'd come runnin' back to me  
When your luck was down  
I knew you'd come runnin' back and see  
I was the best around  
Best around, yeah baby  
I knew you'd come runnin' back and see
