

# You're Gonna Get What's Coming

Bonnie Raitt

You came up on me like a landslide  
Once in a while I get taken like that  
And I like it

I've got a Thunderbird parked right outside  
Give me a minute to finish this thing  
And we'll ride it

In all this heat it's a job keeping cool  
And I could fry an egg on you

You came up on me like a landslide  
Once in a while I get taken like that  
And I like it

You're gonna get what's coming  
You've been asking for it two days running  
You're gonna get what's coming  
You're gonna get what's coming to you

You're gonna get what's coming  
You've been asking for it two days running  
You're gonna get what's coming  
You're gonna get what's coming to you

I hope that you're half as intrepid as you make out  
More often than not, I'll bet  
You never got what you asked for

Keep on pouring until you hear me shout  
And turn up the sound  
If you want me to drive any faster

Caution went out when you walked in the room  
If it never came back it would be too soon

You came up on me like a landslide  
Once in awhile I get taken like that  
And I like it

You're gonna get what's coming  
You've been asking for it two days running  
You're gonna get what's coming  
You're gonna get what's coming to you

You're gonna get what's coming  
You've been asking for it two days running  
You're gonna get what's coming  
You're gonna get what's coming to you
