

# Take The Train

Rakim

Calling all Rugrats Please come in Rugrats

Take it to the maximum  
Take it to the max  
All in together lets make a game  
We can all win if we play the same  
Whoever gets caught got to take the blame  
We gon' take the train, take the train

Take it to the maximum Take it to the maximum

The trains been highjacked on track and never come back  
The express, the last stop is where the funs at  
I got my friends, a car full of hostages  
To the destination, they'll be lots of kids  
Enough said, take it full steam ahead  
I give extreme direction to the team of fed  
We ain't a breeze, once we hit top speed they gonna panic  
But it's aerodynamic  
Scream across the planet  
Engines go against a airforce wind  
Adrenaline, make sure the trail of force won't end  
The third rail prevails  
We don't pretend to spin  
Next questions is when will the fun begin  
What will we get there, double the kicks  
Hurry up because we can get in trouble for this  
Speeding the Rugrat's and them we have to come  
Take it to the maximum

All in together lets make a game  
We can all win if we play the same  
Whoever gets caught got to take the blame  
We gon' take the train, take the train

Take it to the maximum Come On

Keep it moving, is this the fastest this thing can go? (No)  
Did we lose them?  
Speed it up we're going too slow, where's the turbo button at? (Right here  
I'ma push it)  
Anymore juice that can boost the blow,  
Stand back give me that, I'ma play a game  
Let's see who can gain on the runaway train  
Everything is real so I know I'll win  
While you wish you could, I know I can  
It's action pack, I was meant for this  
High energy and adventurous  
Look around we're going faster than the speed of sound  
Anymore faster and we'll leave the ground  
Day designed, outlined the curve  
We zig-and-zag till we start to swerve  
Speeding the Rugrat's and them we have to come  
Take it to the maximum

All in together lets make a game  
We can all win if we play the same

Whoever gets caught got to take the blame  
We gon' take the train, take the train

Take it to the maximum Rakim: Take it to the maximum
