

Just like me

Ram Jam

Wanna fight, get it right, wanna fight, baby tonight
Wanna fight, get it right, get in time, baby it's right
Why, they tell me bother, baby keep it coming tonight
Giving out the number, cause you want a summer, that's right

Cause you're just like me
Baby's been running round, just like me
Going around and round, just like me
Baby's been going down, just like me

Wanna fight, get it right, wanna fight, baby tonight
Wanna fight, get it right, get in time, baby it's right
Oh, they will another, having quite enough of that's right
Oh, it's such a bummer, baby will another, yeah right

Cause you're just like me
Baby's been running round, just like me
Going around and round, just like me
Baby's been going down, just like me
Just like me, baby's been running round, just like me
Going around and round, just like me
Baby's been going down, just like me

Why, they tell me bother, baby keep it coming tonight
Giving out the number, cause you want a summer, that's right

Just like me, baby's been running round, just like me
Going around and round, just like me
Baby's been going down, just like me
Just like me, baby's been running round, just like me
Going around and round, just like me
Baby's been going down, just like me

Wanna fight, get it right, wanna fight, baby tonight
Wanna fight, get it right, get in time, baby it's right
Oh, they will another, having quite enough of that's right
Oh, it's such a bummer, baby will another, yeah right

Just like me, baby's been running round, just like me
Going around and round, just like me
Baby's been going down, just like me
Just like me, baby's been running round, just like me
Going around and round, just like me
Baby's been going down, just like me
