

Saturday night

Ram Jam

We got the Saturday fever, go getting it on
We're gonna party harder right after the door
We'll be singing and carrying on until the [?] are gone

We'll be living, laughing, loving on Saturday night
Saturday night, we got the feeling
Saturday night, we can't believe it
Saturday night, we got the feeling, a feeling it's right
Oh Saturday night

Let not mistaken the love that we're making tonight
You're back on my shell when the magic is heaving right
We're gonna let all the limbos speak
We're gonna jump up and down the street

We'll be living, laughing, loving on Saturday night
Saturday night, we got the feeling
Saturday night, we can't believe it
Saturday night, we got the feeling, a feeling it's right
Oh Saturday night, Saturday night, it's a feeling we know
Saturday night, it's a time to let go
Saturday night, it's a feeling we know
It's a time to let go

We'll be cruising and boosing and taking all over the bars
We're looking for glittery girlies, who may be our stars
I've been looking for someone like you
For any good looker man do
For living, laughter, loving on Saturday night

Saturday night, we got the feeling
Saturday night, we can't believe it
Saturday night, we got the feeling, a feeling we know
It's a time to let go
Saturday night, it's a feeling
Saturday night, it's believing
