

The kid next door

Ram Jam

So now I feel too exited
Because you said she'd be delighted
To teach all the chicks as you learned on the week before
Her daddy couldn't stop her when her mom said she would drop her
And the bullet never made it, rockin' then it climbed the wall

Good, you keep the habit
All the ladies haven't grabbed it
'Cause they love another Lucy
From the kid next door
Good, you keep the habit
All the ladies haven't grabbed it
'Cause they love another Lucy
From the kid, from the kid next door
From the kid next door
From the kid next door

Smells just like a sandwich
Between the sheets, the sheets and the mattress
A little temptation, complete satisfaction
Trying messin' operation, what a dumb combination
Daddy hadn't drop him, asked if he could stop him
On the very next minute from the kid next door

Good, you keep the habit
All the ladies haven't grabbed it
'Cause they love another Lucy
From the kid next door
Good, you keep the habit
All the ladies haven't grabbed it
'Cause they love another Lucy
From the kid, from the kid next door
From the kid next door
From the kid next door

I'm the kid, I'm the kid, I'm the kid, I'm the kid next door
I'm the kid, I'm the kid, I'm the kid, I'm the kid next door
I'm the kid, I'm the kid, I'm the kid, I'm the kid next door

I'm the kid next door

I'm the kid, I'm the kid, I'm the kid next door
Oh yeah, I'm the kid next door
