

Awakening The Chimaera

RAM

In the abyss, the darkness of the minds
Nine eyes open on three heads
An ancient terror, black monstrosity,
Awakens and belows out in hate
Anti trinity, heretics divinity is alive and
Thirst for war
It's prison has decayed, hero's ideals betrayed,
Civilization a dead idea
Your hollow world has lost it's meaning
Your god is dead
From the pits the threeheaded one
Arises in fury
Earthquakes, lightning, poisoned strikes,
It attacks relentlessly
Behold the chimaera
Your towers high, your golden temples
All has become ash
All your dreams are nightmares now as the
Monster stalks inside
In the scorching wake of the antispirit,
Truth arises and a new world
Legions march!
Lion, serpent and ram, forged with a
Blackhole heart
Fire, venom, tenacity
Mystic energies align, opposites connect
As it's spine
Blood boiling fury shakes the earth
Your hollow world has lost it's meaning
Your god is dead
From the pits the threeheaded one
Arises in fury
Earthquakes, lightning, poisoned strikes,
It attacks relentlessly
Behold the chimaera
Your towers high, your golden temples
All has become ash
All your dreams are nightmares now as the
Monster stalks inside
In the scorching wake of the antispirit,
Comes death
