The Beast Within

Damnation, a fiery whip strikes within. Tormentor, manic, supressive aggressor inside. Dark spirit, has chained itself to my spine. Doom pilot, spiritual werewolf is now in command.

I am the host, host of the beast. Controlled by another, possessed but aware.

Soulstinger, screaming it's orders with hate. Ghost tyrant, enforcing it's cruel, vicious plan of revenge.

I am the host, host of the beast. Controlled by another, possessed but aware.

Possessed by a being obssessed, cravin the sweat and the lights. Controlled, inner chokehold, driven through fire and ice. Possessed by a being obssessed, burning my way through the lies. Controlled, inner chokehold, unstoppable slaver unbound.

I am the host, host of the beast. Controlled by another, possessed but aware.
