```
What makes you think she'll go with you What makes you think you're better than me You think you can read her mind Maybe you're just looking for a good time Maybe you can give her more Tell me what you're doing this for Stay away from her, Cause it's making me angry
```

```
Don't tell me how to love my baby
She belongs to me
```

You come around looking for kicks
But I know all about your dirty tricks now
You think you took away my dream
Ain't gonna be easy 'cause I get real mean
Get out of here, get out of my life
You're gonna be sorry if we have to fight
Stay away from her,
Cause it's making me angry

```
Don't tell me how to love my baby
She belongs to me
```

```
Don't tell me how to love my baby She belongs to me She belongs to me
```
