

# Somebody Put Something in My Drink

Ramones

Another night out on the street  
Stopping for my usual seat  
Oh, bartender, please

Tanqueray and tonic's my favorite drink  
I don't like anything colored pink  
That just stinks...it's not for me

It feels like somebody put something  
Somebody put something in my drink  
Somebody put something  
Somebody put something

Blurred vision and dirty thoughts  
Feel out of place, very distraught  
Feel something coming on

Kick the jukebox, slam the floor  
Drink, drink, drink, drink some more  
I can't think  
Hey! What's in this drink?

It feels like somebody put something  
Somebody put something in my drink  
Somebody put something  
Somebody put something in my drink  
Somebody put something  
Somebody put something in my drink  
Somebody put something...in my drink...in my drink...  
in my drink...in my drink

So you think it's funny  
A college prank  
Goin' insane for something to drink  
Feel a little dry

Oh, I couldn't care what you think of me  
Cause somebody put something in my drink  
I can't think  
Hey! Give me a drink

It feels like somebody put something  
Somebody put something in my drink  
Somebody put something  
Somebody put something in my drink  
Somebody put something  
Somebody put something in my drink  
Somebody put something  
Somebody put something in my drink  
Somebody put something  
Somebody put something in my drink  
Somebody put something  
Somebody put something in my drink  
Somebody put something  
Somebody put something in my drink  
Somebody put something  
Somebody put something in my drink
