## **Strength To Endure**

Walking through across the heart Feeling heavy and hopeless Wonderin' how I ever will See through this darkness Every drop of blood can be so beautiful And I sure was bleedin' the drops by the bucketful

I have the strength to endure and all the love so pure I have the strength to endure because, because

I'm not afraid to tell her Just how things work Ride a hurricane through the fast lane Always looking over my shoulder She said there's something about you And neon lights always glow hot Baby we can see this through Just give me all the strength you've got

I have the... (2x)

I'm not afraid...

I have the... (2x)
