

# Zero Zero Ufo

Ramones

It landed in a field in Idaho  
Where it came from, I don't know  
It did not look like it came from Japan  
And out of the dark walked a strange man

If you think it's a pack of lies,  
I saw it happen with my own eyes  
A million miles from the milky way  
A hundred years, a month, and a day

Zero Zero UFO

(When media writes) the neon lights  
Spaceship travels at the speed of light  
A million stars in the sky  
(I here the Queen's on the alien's side)

If you think it's a pack of lies,  
I saw it happen with my own eyes  
A million miles from the milky way  
A hundred years, a month, and a day  
Hey!

Zero Zero UFO  
Hey!
