

# Animosity

Rancid

break down the fear  
i got my animosity  
i'm gonna breake it down

armageddon is coming so you better start running  
cause the big wave is coming to the shore  
no suprise that you see throu the lies  
of the system that's rotten to the core

high tech survailance  
paranoia and violence  
keeping the city at a calm  
break it down  
tear it apart  
the city's going off  
like a bomb

break down the fear  
i got my animosity  
i'm gonna breake it down

helicopters coming down on me tonight  
my brother selling cocaine he knows how to fight  
hounded and arrassed in a power elite bought  
sun ain't arise so i abite by my route  
i remember a cold december when i heard the revolution rock  
didnt hear what they were saying i ran thru the mayhem  
of a police state on my block  
high tech survailance  
paranoia and violence  
keeping the city at a calm

break it down  
tear it apart  
the city's going off  
like a bomb
