

Detroit

Rancid

I didn't know what time it was til the sun went down
Detroit, Michigan on the bus downtown
Last night i was fighting on in the street
But tonite i have a girl next to me in this cold world
She brings me heat

I got a good feeling in a bad city tonight
I gotta good feeling everything is gonna be alright
Some run some fight
I got a good feeling in a bad city tonight

Detained in illegal custody spent the night in jail
With a drunken priest and a hooker 500 dollars bail
Nobody knew who was who standing in the street like that
I hit the ground to make a sound and it just goes like that

I got a good feeling in a bad city tonight
I gotta good feeling everything is gonna be alright
Some run some fight
I got a good feeling in a bad city tonight

Bus dropped me off and i had to cough
I couldn't breathe cause i got ripped off
I couldn't realize by being satisfied cause it runs so thin
And that's why i'm pissed off

We had no money we had time
She had the champagne i had the cisco wine
She said "do you want to come you better hurry because
We'll have hell to pay"

I got a good feeling in a bad city tonight
I gotta good feeling everything is gonna be alright
Some run some fight
I got a good feeling in a bad city tonight
