

# Dominoes Fall

Rancid

Hey ho, let the bombs blow  
Let the dominoes fall  
I ain't got control (2x)

No control of destiny  
Wake me up to reality  
I can just see Anarchy  
And there ain't no telling  
who's in charge here

Hey ho, let the bombs blow  
Let the dominoes fall  
I ain't got control (2x)

Dead men they tell no tales  
Satan finally broke out of hell  
and everybody's got  
Something to sell  
cause there ain't no good  
that I can see here

Hey ho, let the bombs blow  
Let the dominoes fall  
I ain't got control (2x)

People going crazy  
Situation Code red  
and the whole worlds  
Out of control  
The walls and the fences  
are being torn down  
And the bodies of the murdered  
are getting cold  
Wild dogs gone mad  
smell the blood of their own kill  
The weakest of the pack  
Nothing is the way  
that it seems around here  
Very clear its a very deadly trap

Let the dominoes fall  
I ain't got control (2x)
