Dope Sick Girl

This song is about a girl who has been off she was dope sick

Dope sick girl hit and run she took my money 87 dollars gone now she's running

How was i i to know That girl could take my heart everywhere she go Dope sick girl a rig and a rid she got no freedom Little deamon gonna hide inside she's gotta feed them

How was i i to know That girl could take my heart everywhere she go Everywhere, everywhere she go

Dope sick girl there she was at the methadone clinic She drank a coup called it a base coat She swore not to get back in it

How was i i to know That girl could take my heart everywhere she go

Dope sick girl gotta rig and a ride to new york city Gonna run away gonna watch it burn in the heart of new york cit Y

How was i i to know That girl could take my heart everywhere she go
