

Evil's My Friend

Rancid

Crime epidemic - Never going down
Unsympathetic - Put you in the ground
System systematic - Survival in the town
Only if you let it - Gonna drag you down

Evil's my friend
Evil's my friend again

If you wanna go and get 'em - you better stand and fight
You're never gonna let 'em - take away your right
And the bad ones forget them - Running to the night
And the good ones regret them - Ready to ignite

Evil's my friend
Evil's my friend again
