

## Gave It Away

Rancid

I went to Mary  
Far to, too long  
Jubilee was cold as fuck  
Why do they make it that cold  
Stand aside while she  
Picked me for you  
For the time you gave it away  
You gave it away  
You gave it away  
You gave it away  
I seen you finish  
I saw you at the start  
I remember you straight from my heart  
You'd ask me and I'd say "What'd you say?"  
"You gave me your heart and then you're taking it  
You gave it away  
You gave it away  
You gave it away  
You gave it away  
You gave it away  
You gave it away
